PROFESSIONAL SUMMARY

Highly motivated Java Full Stack Developer skilled in building scalable web applications using **Java, Spring Boot, React.js, REST APIs, SQL, and modern frontend technologies**. Strong problem-solving skills with hands-on experience in creating dynamic UIs, integrating APIs, and designing database-driven systems. Passionate about clean code, performance optimization, and end-to-end development

Education

Bachelor of Computer Applications

Pt. Ravishankar Shukla University, Raipur, Chhattisgarh

Internships

Software Engineer Intern, Infosys – BBSR

June 2025 – Present

- Developed and integrated **Spring Boot REST APIs and microservices** to improve backend scalability and ensure smooth communication between modules
- Built responsive front-end interfaces using **Angular, JavaScript, TypeScript, HTML, and CSS** and connected them with backend APIs for dynamic data handling
- Worked with senior developers to debug issues, optimize application performance, and follow clean code and Agile development practices

Software Engineer Intern, EVD Technology LLP – Raipur

Aug 2023 – Nov 2024

- Built dynamic and user-friendly interfaces using **JavaScript, Advanced JavaScript, and React.js** ensuring efficient component-based architecture and smooth UI interactions
- Developed responsive web pages using modern CSS frameworks (**Tailwind CSS, Bootstrap**) to deliver clean, mobile-friendly designs
- Collaborated with the development team to implement reusable UI components, optimize frontend performance, and improve overall user experience across the application

Projects

Task Management System

- Built a full-stack Task Management System using Spring Boot, Angular, MySQL, and JWT authentication, providing secure REST APIs and role-based access.
- Implemented Role-Based Access Control (Admin, Manager, Member, Viewer) with permissions for task management, team management, and admin operations.
- Developed features for task creation, assignment, status tracking, comments, and activity logging, improving collaboration and task visibility.
- Designed a responsive Angular dashboard with Tailwind CSS showing analytics like task completion rate, overdue tasks, and priority distribution.

Skills

Programming: Java, Javascript, TypeScript

Frontend: HTML, CSS, BootStrap, TailwindCSS, React, Angular

Backend: Spring, Spring Boot, REST API, Hibernate, JPA

Database: MySQL

Tools: GitHub, Postman, Maven

Soft Skills: Logical Analysis, Technical Troubleshooting, Adaptability, Active Listening, Collaboration Skills

Certifications

- Programming Using Java (Infosys)
- Service Layer using Spring (Infosys)
- REST API using Spring (Infosys)
- Prompt Engineering (Infosys)
- Persistence Layer using Spring Data (Infosys)
- Angular (Infosys)
